

Recover-Rebuild-Reopen

April 28, 2010

From the Desk of Dr. Christina Luna, Superintendent

The Calexico Unified School District, in partnership with CalEMA and in conformance with the Federal Guidelines for Recovery Process, is working to quickly **RECOVER, REBUILD and REOPEN** all of the school sites. We have developed this flyer as a means of keeping our community informed about our progress. On a daily basis we will be communicating important information regarding:

- Student and Staff Safety
- Student Educational Resources
- School Site and Building Repairs.
- Funding
- Community Outreach Programs

A bulletin with this information will be posted at specific locations throughout the community such as Food for Less, Wal-Mart etc. as well as on the CUSD website. We have also established a Phone Line (760-768-3897) where a live person will answer parent and community questions. Attached is the first informational bulletin describing the events that have occurred since the earthquake of April 4, 2010.

Thank you all for your patience, time and support.

Who is:

CalEMA:
The California
Emergency
Management Agency

**Federal Guidelines for
Recovery Process**
These are Federal
guidelines that must be
met in order to qualify
for Federal Emergency
Funding.

The attached handout will provide information on the process to:

- **RECOVER:** Under this section you will find what CUSD has provided in order to help our educational community recover from the damages inflicted by the 7.2 Earthquake.
- **REBUILD:** This section will provide a daily update as to the damages and ongoing repairs at each school site.
- **REOPEN:** This section will update you on the plans to reopen each school site as well as information regarding the opening of temporary student instructional sites, educational resources, assignments and websites that are being provided by the District and school sites.
